June 10, 2009

To Whom It May Concern:

I am very pleased to recommend Jeremy Whittaker of N2 Network Solutions for any of your IT needs. I am not an IT expert and the little bit I know was sure to get me into trouble. I was having a difficult time trying to install an SSL certificate onto a server for an internet application; Jeremy came through with flying colors and solved my dilemma in a minimum amount of time.

I was impressed with his depth of knowledge and his care and professionalism regarding my issue. I would not hesitate to engage his firm again in the future should we have any additional IT problems.

If you would like to discuss this further please do not hesitate to contact me.

Sincerely,

Michael P. Perikly
President
