

11 July 2005

To whom it may concern,

I am pleased to write this letter of recommendation for Jeremy Whittaker. I worked with Jeremy at Darcomm Network Solutions from April of 2004 through May of 2005.

As the senior project manager at Darcomm Network Solutions, I worked with Jeremy on many projects. On every occasion, Jeremy proved himself to be not only a strong technical resource, but showed his real value by building strong customer relationships. His reliability and dedication to success has fostered a high degree of trust in our business by our customers.

The nature of many of the projects we worked together on put Jeremy at very remote customer sites for extended periods of time. During these engagements, I always knew I could count on Jeremy to deliver and to get the job done, whatever it took. In every professional services organization, there are key resources who are so valued that the PM's fight over them in project scheduling meetings. I must admit, I spent more than my share of time fighting to get Jeremy on my projects.

For these reasons and many others, I feel Jeremy would be a great asset to any organization.

Please feel free to contact me directly if you should have additional questions.

Regards,

Kim Essendrup, PMP
