ITEMS TRANSMITTED:

To Whom It May Concern:

N2 network has done Active Directory migrations, Exchange migrations, and Windows scripting for the Town of Gilbert over the past several months and were professional and courteous. The service has been exceptional and I have been working with this Mike and Jeremy in person and remotely on these projects. They take a personal approach to our requests which is nice to have in today's technical arena. I recommend them highly and will continue to use them for my future Microsoft needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Miller". The signature is fluid and cursive, with a large initial "C" and "M".

*Chris Miller
Town of Gilbert
Network Coordinator*
